## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 31 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant's present claim language leaves it ambiguous whether the computer system and the computer are the same entity.

### ***Claim Rejections - 35 USC § 101***

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

- Claim 32 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claim recites a computer readable medium comprising software than is not "tangibly embodied".

### ***Specification***

4. The abstract of the disclosure is objected to because the content does not include reference to the allowable subject matter. Correction is required. See MPEP § 608.01(b).

***Allowable Subject Matter***

5. Claims 2-26, 28-30, 33-39 are allowed.

6. The following is an examiner's statement of reasons for allowance:

Claims 2-26, 33-36, 38-39 are allowable over the prior art of record because the prior art fails to teach or suggest a computer system to provide at least one telephone feature to a telephone of a user, the network comprises a bi-directional protocol layer and a uni-directional protocol layer, wherein direction of the uni-directional protocol layer communicates is from the computer system to the computer, i.e. pushing information from the computer system to the computer as amended by applicant.

Claims 28-30, 37 are allowable over the prior art of record because the prior art fails to teach or suggest sending a refresh request to the graphical user interface to prompt the computer to request an update on a state of the telephone as amended by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrice Winder whose telephone number is 571-272-3935. The examiner can normally be reached on Monday-Friday, 10:30 am-7:00 pm.
